

SIZING OF SCREENPRINT DESIGNS

**11" wide x 9" tall will work on most YL and up size garments.
(hoods, crews, long & short sleeve tees).**

**Even if your current order has no hoods, as best practices, try to keep it at 11" wide x 9" tall.
This will help if the customer later places a reorder which does include hoods.**

YS MAX DIMENSIONS ARE APPROX. 11" x 6"

YM MAX DIMENSIONS ARE APPROX. 11" x 7"

VERTICAL, PORTRAIT SIZE DIMENSIONS DO NOT FILL UP THE FRONT PRINT AREA ON A HOODED SWEATSHIRT.

HORIZONTAL, LANDSCAPE SIZE DIMENSIONS FILL THE FRONT PRINT AREA ON A HOODED SWEATSHIRT BETTER.

TIP

A letter size sheet of printer paper (8.5" X11") held landscape, is approximately our recommended print size for a full front print. It works on 90% of the shirt tops we offer!

If the size run on the order has both smaller and larger sizes, the customer needs to let it be known if they would like 1 print size on all garments (less expensive) or multiple print sizes (more expensive).

SHOWN WITH 11" WIDE X 9" TALL PRINT SIZE ON A YL & XXXXL FOR PRINT SIZE COMPARISON.
